579             <h3>Project Overview</h3>
580             <p>Canberra Metro Operations (CMET) commissioned me to develop a visual communication campaign promoting light rail safety awareness for young adults. The campaign aims to educate and inform the target audience (15-24 years) about light rail safety and encourage them to use it as a safe and sustainable mode of transport. The campaign will be used in various digital and physical media, including social media, billboards, and in-car displays. The design must be visually appealing and easy to understand, with a focus on safety and accessibility. The campaign will be launched in time for the start of the light rail service in 2025.
581
582             <p>My job was to create a visual campaign that educates and informs the target audience (15-24 years) about light rail safety and encourages them to use it. The campaign will be used in various digital and physical media, including social media, billboards, and in-car displays. The design must be visually appealing and easy to understand, with a focus on safety and accessibility. The campaign will be launched in time for the start of the light rail service in 2025.
583
584             <h3 style="margin-top: 35px;">Requirements</h3>
585             <ul>
586                 <li>All visual elements must be original work created using Adobe Creative Suite</li>
587                 <li>Designs must be suitable for digital distribution and public display</li>
588                 <li>All work must meet industry specifications for print and digital media</li>
589                 <li>Target audience: 15-24 years old</li>
590                 <li>Focus on light rail safety awareness and education</li>
